

**State Health Improvement Plan (SHIP)
Maternal, Infant and Child Health (MICH)
Developmental Screening Action Team Meeting
August 10, 2016 Notes**

Heidi Maderia, Deb Resnick, Marijane Carey, Mark Keenan, Kareena DuPlessis, Luz Riveria, Mona Scales, Ann Gionet

- Stress the importance of families
 - Need to be family focused. Families need to take the lead for their children
 - Want to flip the order of the strategies starting with families

- Messaging
 - Want to have consistent message for all target populations – families, providers, legislators, etc.
 - One campaign/one message
 - Message needs to include “infant mental health”

- Funding available
 - Project Launch message campaign
 - Action plan should address protective factors

- Age range should include prenatal to age 3
- Need to address relationships, attachment/trauma

- Promote the ASQ-3 and the ASQ:S/E

- Need to look at the ECCS Objectives action plan (*Sent after the meeting*)

- Trainings
 - Use the ECCS toolkit - <http://www.eccsct.org/toolkit/>
 - Offer online trainings
 - Utilize EPIC @ CHDI
 - Develop a common training for all home visitors

- Need to find kids not in the system

- Challenge: lack of data system
 - What is the status of ECIS (Early Childhood Information Service) and MAVEN?
